

Warning

To install and repair this Whale product you must have completed an official Whale training course and have the appropriate technical documentation, tools and equipment. ALWAYS carefully follow the Whale Technical How To Guide for this product and heed all warnings. Whale rejects liability for problems and damage caused by the system being installed by untrained or incompetent personnel.

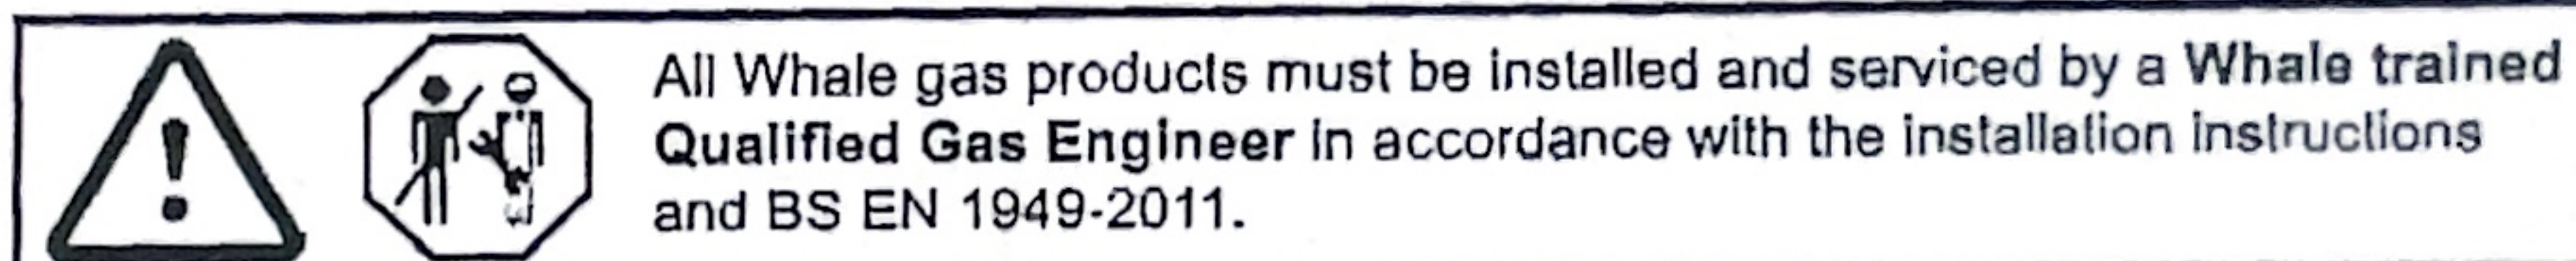

For installation instructions, please refer to the Technical How To Guide received during official Whale Heater training.

For Gas Products

This Whale Spares Kit must only be installed by a Whale Approved Service Engineer who is an LPG accredited gas engineer.

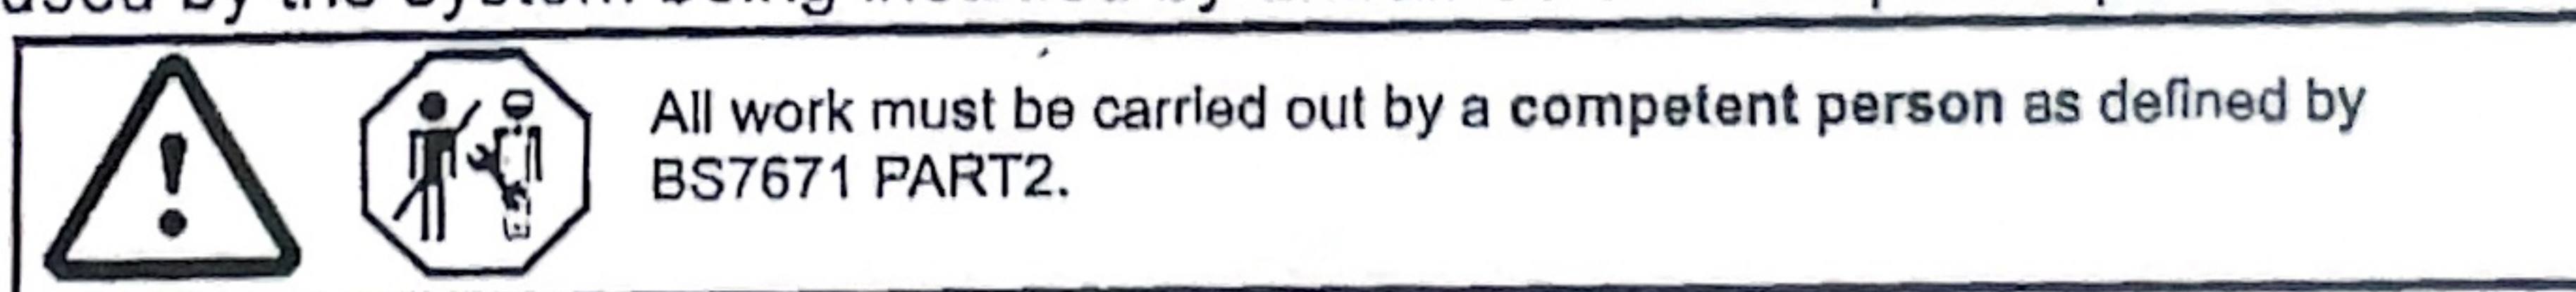

Installation, servicing and repair under warranty of this appliance must only be carried out by competent persons registered with the Gas Safe Register (GB) of the relevant national organisation, in accordance with the relevant regulatory and safety requirements. Improper installation or repair of Whale heating systems can cause fire or the leakage of deadly carbon monoxide leading to serious injury or death.

Please note: The appliance **must be** installed in accordance with any relevant regulations in the country where the appliance is installed. For this appliance in Europe the standard is BS EN 1949:2011 "Specification for the installation of LPG systems for habitation purposes in leisure accommodation vehicles and in other road vehicles"

For Electrical Products

Electrical - 230V mains: ALWAYS carefully follow the Whale Technical How To Guide for this product and heed all warnings. Whale rejects liability for problems and damage caused by the system being installed by untrained or incompetent personnel.

Please note if incorrectly installed a risk of electrocution exists.
