

# **Falcon Magnetic Wireless Rear View Camera System**

The new Falcon Magnetic HD Wireless Camera & 5" Monitor system is a quick and simple, plug and play solution for rear view visibility without the need for drilling holes in the vehicle. The IP67 rated waterproof HD Camera has a 9000mah built in battery for up to 9 hours driving time in one charge. However, the camera also comes with an integrated mini mono-crystalline solar panel to keep the battery charged.

The Camera has an ultra-strong magnet for mounting and the kit is provided with a powder coated magnetic plate which can be bonded to the vehicle with the included adhesive. This ensures the camera is secured to the vehicle without any worries of movement.

The system is also provided with a 5" dash / windscreen mounted monitor powered by 12V DC cigarette lighter adapter and provides a wireless connection between the camera and the monitor inside the van.

This system is ideal where drilling holes in the vehicle for cable access is not desired and is simple to install and operate.

Get great visibility on the road for peace of mind whilst driving with the Magnetic HD Wireless Camera System from Falcon, Life Made Easy.

## **What's Included:**

### **Camera:**

- Image Sensor: CMOS
- Viewing Angle: 170 Degree
- Waterproof Rating: IP67
- Operating Voltage: DC 12V – 24V
- Power Consumption: 100MA
- Minimum Illumination: 0.01 Lux

### **Monitor:**

- 5 Inch IPS Full View Angle
- Resolution: 800 x 480
- Brightness: 500 cd/m
- Operating Voltage: DC 12V- 24V
- Power Consumption: 240 20mA @ 12V DC
- Operating Temperature: -20 – +70 Degree C

Transmitting / Receiving Frequency: 2400 – 2483.5 MHz

### **Included:**

- Magnetic Wireless Camera with integrated Solar Panel
- Metal – Powder Coated – Steel fixing plate.
- Bonding Adhesive
- 5" Dash / Windscreen Mounted 12V DC Monitor
